

DAVID P. LAWSON

Production/CADD Design/Safety Director

Mr. Lawson began working for Bergstrom Electric, Inc. in October, 1992 after working for an architectural/engineering firm for 6 ½ years. His current duties include, but are not limited to: Production/Cadd Design, Safety Director, Meeting/Events Coordinator and the company newsletter.

During his career, Mr. Lawson has been involved in numerous design/build projects that have included: residential, libraries, casino's, nursing homes, banks, hospitals, clinics, schools, office complexes, airport facilities, manufacturing plants, gas stations, churches, restaurants, clothing retailers, apartment complexes, townhomes and grocery stores.

Because of Mr. Lawson's expertise, he is frequently involved in various stages of a project, from the initial start-up of the design/build portion to the project's completion when the Operation and Maintenance manuals are assembled.

As Safety Director, Mr. Lawson is responsible for the implementation/enforcement of all safety policies, injury management, accident investigations, job-site inspections, OSHA regulations, training/certification of personnel, new employee orientations and drug testing/evaluations.
