

Holiday Inn Express of Devils Lake

Located along US Highway 2 in Devils Lake, the 3 story, 35,000 square foot Holiday Inn Express includes:

- 60 guest rooms
- Fitness center
- Guest laundry facility,
- Conference rooms,
- Pool/hottub area
- 12 King suite guest rooms, and
- Business Center

All rooms in the facility are equipped with granite counter tops, flat screen televisions, and wireless internet service throughout the facility.

Bergstrom Electric served as the Electrical Contractor for the project and started work in April of 2008. Bergstrom was responsible for successfully value engineering the project within the owner's budget.

The electrical system included a 1200amp, 208volt 3 phase service with 10 sub-panels.

There was 55,000 feet of romex and 27,000 feet of low voltage cable pulled in the project, as well as 300 light fixtures.

Devils Lake, North Dakota

Electrical Construction: \$230,500
