

Mr. Cliff Moen
Bergstrom Electric, Inc.
P.O. Box 13152
Hwy 81 North
Grand Forks, ND 58208-3152

Dear Cliff,

As we complete the 256,000SF production facility in Grafton, ND, I felt I should write and say, "Thanks!" This is the second large project Bergstrom Electric has completed for Marvin Lumber and Cedar Company and I am very grateful for your professional approach to both projects.

I was very happy with your work on the 168,000 SF Integrity Windows plant in Fargo, ND. That first project went well and was completed on schedule.

I didn't really know how good Bergstrom Electric was until I bid the Grafton project and all of the competing General Contractors had selected Bergstrom Electric as the subcontractor of choice for the electrical portion of the project. The General Contractors always know the best subcontractors. Now you have made a believer out of me as well.

Despite the flood of the century, we moved in to the new facility on time and on budget. Please thank the people on your staff for the effort they made for Marvins. Please give a special thanks to Doug, Steve and Dave.

I look forward to working with you again in the future.

You may use this letter as a reference if you like. I have included my name, address and phone below. I would be more than happy to recommend you to other prospective clients. Feel free to have them give me a call.

Very Respectfully,

A handwritten signature in black ink that reads "Maury K. Peterson". The signature is written in a cursive style.

Maury K. Peterson, P.E.
Facilities Engineer
