RE: North Lot Paving and Improvements
Marvin Windows and Doors
Warroad, MN

Dear Russ:

I would like to take this opportunity to commend you and Bergstrom Electric for your excellent work on the above project. Your work included placement of underground conduit and wire; installation of concrete pedestals for light poles, car plug-ins and panels; installation of transformers and panels; and placement of owner supplied light poles and fixtures for a 930 vehicle parking lot.

We found your project superintendent, Chad Bottem, extremely easy to work with. He completed the work ahead of schedule despite the fact our supplier could not deliver poles and fixtures when we expected. Chad was very conscientious and worked well with our electrical staff. He also made suggestions that ultimately improved the final installation.

Bergstrom's quality of work and ability to meet a schedule through adequate staffing are second to none.

We highly recommend Bergstrom Electric.

Sincerely,

Marvin Windows and Doors, Inc.
