MORROW ENGINEERING, INC.

Dakota Growers Pasta Plant, Carrington, ND
Electrical Installation by Bergstrom Electric, Inc.

To Whom It May Concern:

This letter is concerning the electrical installation work done by Bergstrom Electric, Inc. at the Dakota Growers Pasta Plant at Carrington, ND.

We enjoyed working with Bergstrom Electric, Inc. on this project by providing the electrical engineering and design work for them to do the installation. This was an interesting but challenging project due to the schedules and complexity of the overall plant. This project involved numerous electrical systems from the incoming main power distribution system to the electronic computerized control systems. They did a good job of meeting these challenges and completing the project. The project was well managed and they were good to work with.

We look forward to working with Bergstrom Electric, Inc. again on future projects.

Sincerely,

A handwritten signature in cursive script that reads "Mervin J. Bontrager".

Mervin J. Bontrager, P.E.
