Steve Wasvick  
Bergstrom Electric  
3100 North Washington Street  
Grand Forks, ND 58201

Dear Steve,

I would like to personally thank you and Bergstrom Electric for the superb work you performed in the construction of our new dealership. The professionalism and courtesy extended by your entire team was greatly appreciated.

With the new facility being constructed immediately adjacent to our existing facility, it was important that we were able to maintain a high level of service to our customers during the building and transition process. Your attention to detail and your ability to adapt to our changing needs ensured that we were able to do so.

I know that "moving" into the new facility in two separate phases, months apart, created special challenges. You went above and beyond to ensure that our transition was smooth and on time. I am very happy with the advice, recommendations, and quality of work you have done for us, both during and after the construction, to meet our electrical and lighting needs.

Thanks again for everything you have done for us. I look forward to continuing our relationship through the years!

Sincerely,

Roni Lillehaugen  
General Manager  
Rydell GM Auto Center
