ATTN: Cliff Moen  
Hwy. 81 North, Box 13152  
Grand Forks, ND 58208-3152

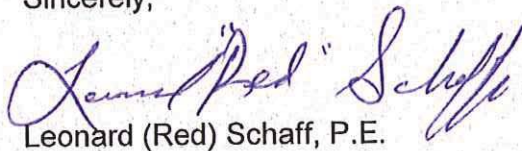

Dear Cliff,

We were very proud to be chosen as the electrical engineering firm to assist Bergstrom Electric, Inc. in the design of the multi-million dollar facility for Valley Memorial Homes in Grand Forks, ND.

From the beginning, Bergstrom's team pushed hard to keep the design of this project on schedule, while keeping the best interests of the owners in mind at all times. The foresight and expertise that the employees of Bergstrom Electric, Inc. possess, definitely worked to our advantage in the design and layout of this project. Their professionalism in dealing with the owner and the many other contractors proved to be second to none.

Schaff Engineering would highly recommend Bergstrom Electric, Inc. to anyone who values honesty, integrity and commitment to their project. They most assuredly know how to get the job done!!

Sincerely,

Leonard (Red) Schaff, P.E.
