RE: Pembina State Museum  
Pembina, North Dakota #9311

Dear Mr. Moen:

I would like to take this opportunity to thank you and your company for the excellent work you did at the Pembina State Museum. I would especially like to thank Steve and Jason along with all your crew members for always being easy to work with and being one step ahead of a very difficult situation. Their knowledge, ability to foresee problems, and willingness to work with the other trades were an important part of getting the project completed.

Again, thanks for all the hard work, I hope to work with you again soon.

Sincerely,

Yeater Hennings Ruff  
Shultz Rokke Welch
